UT Dallas engages in continuous, integrated, and comprehensive planning and evaluation processes. As a part of these activities, UT Dallas’ administrative and academic units identify expected outcomes, assess the extent to which they achieve those outcomes, and provide evidence of improvement based on analysis of the results. This process incorporates a systematic review of the UT Dallas mission, goals, and outcomes in areas such as:

- **Degree and certificate programs, to include student learning outcomes**
- **Administrative and Academic Support**
- **Academic and student support services**
- **Core Curriculum Assessment**

The Assessment Team provides university-wide support to assist the institution’s administrative and academic units with demonstrating their institutional effectiveness.

### Upcoming Assessment Deadlines

- **October 31, 2022 (Monday)** - Academic program assessment reports for academic year 2021-2022 and plans for academic year 2022-2023 due
- **Clarifications on Reports and Plans** - Let’s think of a report as two parts. Part A consists of what you plan on doing this year for assessment (fill out the column labeled measure). This is also known as an Assessment Plan. Part B then looks at the past year of what you’ve done for assessment (fill out the columns labeled results and plan along with the summary sections). A full Assessment Report is part A that was filled out last year plus part B that you’re filling out this year. Each year you will hand in Part A from the current school year (Assessment Plan) and part B from the previous school year (making it an Assessment Report).
- **October 28, 2022 (Friday)** - Administrative unit reports for academic year 2021-2022 or fiscal year 2022 and plans for 2022-2023 and fiscal year 2022 are due
- **COVID-19** - Please reach out with any questions and concerns due to COVID-19 and its impact on your assessment report/plan
