Assessment Homepage

UT Dallas engages in continuous, integrated, and comprehensive planning and evaluation processes. As a part of these activities, UT Dallas' administrative and academic units identify expected outcomes, assess the extent to which they achieve those outcomes, and provide evidence of improvement based on analysis of the results. This process incorporates a systematic review of the UT Dallas mission, goals, and outcomes in areas such as:

- Degree and certificate programs, to include student learning outcomes
- Administrative support services
- Academic and student support services
- Research
- Community/public service

The Assessment Team provides university-wide support to assist the institution's administrative and academic units with demonstrating their institutional effectiveness.
